

GET IN OR GET LEFT.

On May 31st, 1890, a State Silver Convention met at Carson City and adopted a resolution which said, "The people of Nevada in convention assembled do by their delegates request their Senators and Representatives in Congress to favor a measure for the opening of the mints of the United States to free and unlimited coinage of standard silver dollars of the present weight and fineness, to be a legal tender to all debts, public or private, and to support no other bill. We can wait for justice rather than submit to any delusive measures."

It is nearly two years since the people of Nevada in dignified and earnest words asked for justice to silver but no justice has been done. The time for humble petitions has passed. The silver men do not ask any favors, they demand free coinage and will be satisfied with nothing else. Weak and timid men have always said on the beginning of every great movement that nothing could be done, yet the result of agitation has always been the triumph of the right. The silver movement has come to stay. It is the beginning of a revolution, and it has been truly said that "revolutions never go backward."

The silver array will not halt until the victory is won. We are not on the trail of the gold-bug army and marching fast. There is no time to wait for the timid or cowardly stragglers. They will be left in the mud if they don't keep up with the procession.—Silver State.

A Chance to Combine.

For years California has declined to take any hand in some very necessary silver legislation, but is red hot for Chinese exclusion. The other day she failed to pass the Chinese Exclusion bill and now the whole of the Golden State is boiling with indignation. Perhaps she is mad enough now to come into the silver camp and make a little trade of Chinese exclusion for free silver.

Washington and Oregon strong anti-Chinese and weak Silver State ought also be very glad to join the combine on the same terms. Let the silver men say to California, Washington and Oregon: "You people have never given us any real assistance on the silver question. Chinese exclusion is all very well but we can't help you in it until you come in line for silver."

We now have these three States in a place where they will be mighty glad to make terms with us.

No Third Party.

People who are frightened by the third party cloud in the horizon, will do well to read what Harrison says in a message to the Senate:

"It may not be inappropriate, however, to say here—believing the full use of silver as a coinage metal upon an agreed ratio by the great commercial nations of the world would promote the prosperity of all their people—that I have not and will not let any favorable opportunity pass for the promotion of that free international silver coinage not presently attainable, then to secure the largest practical use of that metal."

This is not just the language the West wants but it starts the way. Both parties will be breaking their necks for silver in a little while.

At the Republican primaries in Denver last Saturday the bosses were utterly routed by the silver men. There was a ticket put in the field for Harris delegates, the gold bug organ in Denver claiming that the silver movement there was all wind and that its real strength would be demonstrated at the primaries. It was demonstrated in such a way that anti-silver workers with their bosses and camp utensils quit the field by noon. The old manipulators were beaten about six to one.
